Sir:

Enclosed is a new substitute diskette, submitted at the Examiner's request, that contains the identical computer readable form in file HSP65A.SEQ that was submitted with the Sequence Amendment dated April 28, 1997. The original diskette was contaminated with a virus.

The sequence listing in file HSP65A.SEQ of the computer-readable form is identical to the sequence listed on substitute pages 34a-34m, submitted in the Sequence Amendment dated April 28, 1997. No new matter is added by the submission of this computer-readable form as it is the same sequence submitted in the April 28, 1997 Sequence Amendment, which added no new matter, and provides the same sequences listed in Figs. 13 and 14 of the application, as filed on September 18, 1996.

Applicants now respectfully request examination of the claims on the merits.

Respectfully submitted,

WEBB ZIESENHEIM BRUENING LOGSDON
ORKIN & HANSON, P.C.
